

Protection of conversations against all kinds of eavesdropping

Top-of-the-line protection system. This is the only device in the world which can give 100% protection to your conversations against interception or recording. The DRUID D-06 creates powerful interference against all kinds of listening devices! Even if a person is standing next to the participants, they will not be able to understand what is being said. The headsets allow the users to hear each other clearly while the DRUID's central unit produces interference. Powered from 220V or the internal rechargeable battery with a resource time of 4-6 hours. The unit is supplied in a carry case.

Not all listening devices can be detected by existing methods. The DRUID D-06 is a unique system for providing protection of human's speech.

Remotely controlled radio microphones, wired microphones, passive resonators, miniature voice recorders practically all these devices cannot be detected by conventional methods. Even a modern cellular phone may contain a digital voice recorder; this means that any phone lying on the desktop could be used by an adversary to record a conversation.

Therefore it is extremely important to have a reliable device protecting private conversations, not depending on their level of importance. The concept of the DRUID is based on generating audio interference produced simultaneously with a human's speech. The volume of this interference is higher than a person's voice; therefore neither listening device nor recorder is able to pick it up.

The generated audio interference cannot be cleared by any noise-clearance methods. At the same time the produced interference does not create any inconvenience to the participants of the negotiation thanks to the special headsets. The DRUID headset allows users to hear each other with crystal clear quality.

Headset for DRUID D-06

Features

- Professional system for protecting speech between up to 6 persons
- Protects against all known methods of listening, including all types of radio microphones, stethoscopes, voice recorders, passive resonators, wired microphones, etc.
- The system uses usual multimedia headsets. 4 headsets PLANTRONICS AUDIO 355 included in the standard set
- Absolutely harmless to your health: no microwave reflections or ultrahigh sound noise
- Compared to a white-noise generator the DRUID provides a much higher level of protection;
- The system is portable: supplied in a plastic carry-case it can be easily prepared for use;
- Powered from an internal rechargeable battery the DRUID D-06 can work for up to 6 hours without mains supply;
- The system can be used in any situation, it is especially valuable when conducting highly important negotiations in an unknown environment

Supplied set

Specification

Type of noise	Distortion+Reverberation
Number of channels	6
Power source	AC 220V / rechargeable battery
Duration of work from internal battery	4-6 hours
Dimensions	23x6.5x17 cm
